Rebalancing	Monthly
Min investment	350 000 AED
Liquidity	7 days ⁸
Risk level	Low

⁸ Funds will be returned within 7 working days after the withdrawal request.

Strategy R

Description	Strategy is aimed at producing conservative return above risk-free rate. To achieve the goal, the portfolio emphasizes conservative instruments, including bonds and US Treasury bills. We control the risk to remain at a low level.
	The strategy is to invest systematically and target the given level of risk, regardless of the economic cycle. The portfolio is rebalanced in accordance with a specific asset allocation algorithm on a monthly basis apart from ad hoc rebalancing that can occur based on market conditions.
	The strategy's target asset allocation should be within the following weight limits at the time of rebalancing, however, the allocation is not restricted to assets of the investment strategies mentioned below:
	Technology Growth: 5%
	Abu Dhabi Falcon: 5%
	Ni-to-ryu: 5%
	Balanced: 5-15%
	Fixed Income: 15-25%
	Money Market USD: 5-100%
	Other Assets: 5-30%

Maximum share in the portfolio	Single Stocks	15%
	Stock Rights	10%
	Equities	25%
	Equity Funds	20%
	Bond Funds	30%
	Commodity Funds	30%
	Mixed Allocation Funds	20%
	Alternative Funds	10%

Description

Strategy is aimed at achieving returns potentially higher than the broader equity market. To achieve the goal, the portfolio focuses on equity investments, while maintaining significant protection through conservative instruments, including bonds and Treasury bills. This strategy assumes a high level of risk for potentially higher returns.

The strategy is to invest systematically and target the given level of risk, regardless of the economic cycle. The portfolio is rebalanced in accordance with a specific asset allocation algorithm on a monthly basis apart from ad hoc rebalancing that can occur based on market conditions.

The strategy's target asset allocation should be within the following weight limits at the time of rebalancing, however, the allocation is not restricted to assets of the mentioned investment strategies:

China Technology: 10-20%
 Technology Growth: 10-20%
 Abu Dhabi Falcon: 10-20%
 Ni-to-ryu: 10-25%
 Balanced: 10-25%
 Fixed Income: 10-20%
 Money Market USD: 5-100%
 Other Assets: 5-30%

Maximum share in the portfolio	Single Stocks	35%
	Stock Rights	20%
	Equities	90%
	Equity Funds	50%
	Bond Funds	60%
	Commodity Funds	30%
	Mixed Allocation Funds	40%
	Alternative Funds	20%
	Single Bonds	35%
	Investment Grade Bonds	30%
	High Yield Bonds	20%
	Unrated Bonds	5%
	Specialty Funds	25%
	US Treasury Bills	100%
	Cash, cash equivalents and money market funds	100%
Fees	Management fee – 0.5%	
	Performance fee – 5%	
Strategy currency	USD	
Assets to invest	Cash	

Income reinvestment	The income received from investments in the strategy is reinvested into the client's portfolio.
Optimum investment holding period	3+ years
Rebalancing	Regularly, based on market conditions.
Min investment	1 000 000 USD
Liquidity	7 days ¹¹
Risk level	High

¹¹ Funds will be returned within 7 working days after the withdrawal request.

Description	<p>Strategy is aimed at producing return that potentially can be significantly higher than the broader equity market. To achieve the goal, the portfolio prioritizes equity investments to maximize stock opportunities. This strategy assumes a high level of risk for potentially higher returns.</p> <p>The strategy is to invest systematically and target the given level of risk, regardless of the economic cycle. The portfolio is rebalanced in accordance with a specific asset allocation algorithm on a monthly basis apart from ad hoc rebalancing that can occur based on market conditions.</p> <p>The strategy's target asset allocation should be within the following weight limits at the time of rebalancing, however, the allocation is not restricted to assets of the investment strategies mentioned below:</p> <p>China Technology: 15-25%</p> <p>Technology Growth: 15-25%</p> <p>Abu Dhabi Falcon: 15-25%</p> <p>Ni-to-ryu: 5-25%</p> <p>Balanced: 5-25%</p> <p>Fixed Income: 5-15%</p> <p>Money Market USD: 5-100%</p> <p>Other Assets: 5-30%</p>
