CONFLICT OF INTEREST

The Company acts as the fund manager and holds 100% of the Fund’s management shares. The Company and its affiliate(s) may act as wealth and investment manager for the Client and/or for the Fund. These roles may create potential conflicts of interest (including but not limited to including trade allocation, fee arrangements and related-party transactions). We maintain policies and controls to identify, manage and, where necessary, disclose such conflicts to clients. Related-party dealings are conducted on an arm’s-length basis. Further information is available in the Private Placement Memorandum and other offering documentation (“Offering Documentation”) which is provided free of charge upon request from clientonboarding@acmgroup.ae

The directors of the Fund may serve as directors of other investment entities and, to the extent that the interests of the Fund and such other investment entities are inconsistent, such directors may have a conflict of interest. Although none of the directors is required to be a shareholder (i.e. investor) of the Fund, all of the directors and any connected persons may invest in the Fund.

The shareholders in the Fund may have conflicting investment, tax and other interests with respect to their investments in the Fund. The conflicting interests of individual shareholders may relate to or arise from, among other things, the nature of investments made by the Fund, the acquisition of investments and the timing of dispositions of investments. Consequently, conflicts of interest may arise in connection with decisions made by the Company, including with respect to the nature or structuring of investments, that may be more beneficial for one shareholder in the Fund than for another shareholder in the Fund, especially with respect to the shareholder’s individual tax situations. In selecting and structuring investments appropriate for the Fund, the Company will not be obligated to consider the investment, tax or other objectives of any particular shareholder.

RISK DISCLOSURE

Investments in the Fund involve risk, including loss of capital, illiquidity, leverage and investment strategy-specific risks. Fees and expenses (including but not limited to fees payable to the Company as a fund manager) will reduce returns. The Client should review the Offering Documentation for more details, conduct his/her own due diligence and seek independent professional advice if necessary.
